Rockville, MD 20857

Dear FDA Representative,

I am writing to ask that you rescind approval of rBGH in the United States (Docket #98P-1194) as they have so wisely done in Canada.

I support the lawsuit calling for the removal of rBGH from the market due to human and animal health concerns. I am particularly alarmed by the increased exposure of the American people to antibiotics in milk and the link of 1GF to cancer.

If you truly care about the health of the American people, you must disapprove the use of rBGH or, at the very least, require labels on BGH foods.

Sincerely,

Barbara Glasgow
